"SAFE HARBOR" STATEMENT UNDER THE UNITED STATES PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

Statements that are not historical facts contained in this Annual Report on Form 10-KSB are forward looking statements that involve risk and uncertainties that could cause actual results to differ from projected results. Factors that could cause actual results to differ materially include, among others: general economic conditions, the market price of water, changes in applicable statutory and regulatory requirements, changes in technology, uncertainties in the estimation of water available under decrees and timing of development, the strength and financial resources of the Company's competitors, the Company's ability to find and retain skilled personnel, climatic conditions, labor relations, availability and cost of material and equipment, delays in the anticipated permit and start-up dates, environmental risks, and the results of financing efforts.

Pure Cycle Corporation (the "Company") is a Delaware corporation founded in 1976 to manufacture and market its patented water recycling technologies designed to process a single family home's wastewater into pure potable drinking water. Production of the single-family water recycling systems was halted in July 1982. In 1987, the Company resumed operations, broadening its business development activities to include the privatization of water and wastewater systems in Colorado and throughout the United States. The Company's business activities include the development of large municipal water and wastewater systems to provide water and wastewater service to customers on a wholesale and retail basis. The Company's business focus continues to center on the application of its patented water recycling technologies to process municipal wastewater into pure potable drinking water for resale.

In 1996, the Company entered into a landmark water privatization agreement with the State of Colorado and the Rangeview Metropolitan District (the "District") for the development of over 26,000 acre feet of water in the Denver metropolitan area. The water privatization agreement enabled the Company to acquire ownership to a total gross volume of 1,165,000 acre feet of ground water (approximately 11,650 acre feet per year), and an option to substitute 1,650 acre feet of ground water, and the use of

surface reservoir storage capacity (collective referred to as the "Export Water Rights").

In addition to ownership of the Export Water Rights, the Company entered into an 85 year Service Agreement with the District to design, develop, finance, construct, operate, and maintain the District's water system to service customers within the District's 24,000 acre service area. The District has reserved approximately 14,350 acre feet per year of water and surface reservoir storage capacity (collectively referred to as the "Service Area Water Rights") for use within the District's Service Area.

The Company's water assets together with its Service Agreement enable the Company to develop and market water rights on a wholesale basis to cities, municipalities and special districts in need of additional water supplies as well as retail customers within the District's Service Area. The Company will seek to utilize its patented water recycling technologies to process the return flow wastewater/ sewage into pure potable water for reuse applications.

Description of Company Assets

Paradise Water Rights

In 1987, the Company acquired certain water rights, water wells, and related assets from Paradise Oil, Water and Land Development, Inc., which constitute the "Paradise Water Rights". The Paradise Water Rights include 70,000 acre feet of tributary Colorado River decreed water rights, a right-of-way permit from the United States Department of the Interior, Bureau of Land Management for the construction of a 70,000 acre foot dam and reservoir across federal lands, and four water wells ranging in depth from 900 feet to 1,800 feet. The water wells produce approximately 7,500 - 9,400 gallons per minute (which produce approximately 14,000 acre feet per well per year) with an artesian pressure of approximately 100 pounds per square inch.

Geographically, there are two significant markets for the Paradise Water Rights: water users in the downstream states of Arizona, Nevada and California; and water users in the Denver metropolitan area. The Company is currently pursuing the sale and development of the Paradise Water Rights as a wholesale municipal water supply to cities, municipalities and special districts in these markets. Other potential development opportunities for the Paradise Water Rights include, but are not limited to, the utilization of the artesian pressure for hydroelectric power generation, water leasing to agricultural interests, mineral interests, and recreational interests. Currently, the Company has outstanding proposals to several public and private companies for the sale of the Paradise Water Rights.

PAGE 3 OF 39

Rangeview Water Rights

Beginning in 1988, the Company initiated efforts to acquire the rights to approximately 10,000 acre feet of non-tributary ground water rights from the District. Since that time, the Company acquired various options to purchase water together with a portion of the Water Revenue Notes and Bonds (the "District Bonds") issued by the District, options to purchase the remaining District Bonds, and certain real property interests within the boundaries of the District. In 1990 the Company entered into a Water Commercialization Agreement (the "WCA") with Inco Securities Corporation ("ISC") to jointly develop and market the water rights. The Company sold rights to investors to participate in the Company's share of proceeds from the WCA in order to finance the acquisition of the above described assets. During fiscal 1995, the Company joined in a lawsuit against the State of Colorado Board of Land Commissioners (the "State Land Board") seeking clarification of a lease which governed the development rights to the water.

In April 1996, the parties to the litigation, including the Company, entered into a Settlement Agreement to dismiss the lawsuit. As part of the Settlement Agreement, the Company purchased all of the District's outstanding District Bonds from the holders of the securities and entered into a water privatization agreement between the District and the Company. As part of the Settlement Agreement, the Company purchased fee interest to the Export Water Rights, which consist of a total gross volume of 1,165,000 acre feet (approximately 11,650 acre feet per year) of non-tributary and not non-tributary ground water, and the option to substitute 1,650 acre feet of tributary surface water for a total gross volume of 165,000 acre feet of non-tributary and not nontributary ground water, and surface reservoir storage rights from the District in exchange for all the outstanding District Bonds.

Comprehensive Amendment Agreement

In order to acquire all the remaining outstanding District Bonds not already held by the Company to enable the Company to enter into the Settlement Agreement and to acquire the Export Water Rights, the Company negotiated agreements with all the remaining bond holders and amended the WCA and its agreements with all prior investors in the WCA. Pursuant to the new Comprehensive Amendment Agreement (the "CAA") entered into in conjunction with the Settlement Agreement, such bond holders and investors have a right to receive \$31,807,232 from the proceeds of a sale or other disposition of the Export Water Rights.

Service Agreement

Additionally, the Company entered into an eighty five (85) year Service Agreement with the District to design, finance, construct, operate, and maintain the District's water system to provide water service to customers within the District's 24,000 acre Service Area. The District has reserved approximately 14,350 acre feet of water per year, together with surface reservoir storage capacity for the Company's use in providing water service to customers within the District's Service Area. In exchange for providing water service to customers within the District's Service Area, the Company will receive 95% of the District's water revenues remaining after payment of royalties to the State Land Board.

The Company will supply water to customers within the 24,000 acres of property which constitute the boundaries of the District's Service Area. The District's Service Area is located in northeastern Arapahoe County, Colorado – a growing county bordering Denver, Colorado. Currently the majority of the property is undeveloped land, however portions of the property have been sold to an area home builder. Development of the property is dependent on overall growth in the Denver metropolitan area.

There are over 100 independent municipal water providers throughout the Denver metropolitan area of which approximately 40 providers account for approximately 95% of the water delivered to the metropolitan Denver consumers. The Company is actively marketing its Export Water Rights to these 40 area water providers as a wholesale or retail water supply.

PAGE 4 OF 39

Recycling Technology

The Company developed and patented water recycling technology which converts single-family home wastewater/sewage into pure potable drinking water. The Company manufactured, installed and operated the single-family water recycling units in the late 1970's and early 1980's until halting production of the units in 1982. The Company has shifted its strategic market for its water recycling technology from the its original single-family units to large municipal wastewater/ sewage treatment applications. The Company, in conjunction with the marketing of its water rights and the development of facilities pursuant to the Service Agreement, will seek to apply its water recycling technology to treat municipal wastewater/ sewage into pure potable water for reuse.

Description of Business

Beginning in fiscal 1987, and continuing through fiscal 1996, the Company has sought to acquire a portfolio of water rights (which are described above in the Description of Company's Assets) which the Company can develop and market to municipal water providers. In addition to developing water supplies for municipal water providers in need of supplemental water sources, the Company is engaged in the privatization of municipal water and wastewater systems. From its initial efforts in the Denver metropolitan area, the Company seeks to utilize its water rights and wastewater treatment technologies to privatize other government owned water and wastewater systems in Colorado and throughout the western United States.

The Rangeview Metropolitan District, a quasi municipal, political subdivision of the State of Colorado is a special district empowered to provide water and wastewater services to approximately 24,000 acres of property located approximately 12 miles south and east of Denver, most of which is owned by the State of Colorado (the "Service Area"). The District has the ability to issue taxexempt municipal bonds and to enter into other governmental financing agreements to provide water service and wastewater treatment for customers in its Service Area. Additionally, the District is empowered to set rates and charges for the water and wastewater services. Pursuant to the Settlement Agreement, the District's water rates and charges must be the average of similar rates and charges of the three surrounding municipal water providers.

The development of the District's Service Area is dependent on growth in the Denver metropolitan area, and on the State of Colorado selling portions of the its property to parties interested in the development of the land. The District has reserved approximately 14,350 acre feet of water annually, together with surface reservoir storage capacity, to provide water service to the property. The District completed a study to analyze the future development opportunities for the property and defined three categories of land uses: residential, commercial/ light industrial, and open space. Approximately 10,000 acres is suitable for residential development accommodating up to 30,000 singlefamily homes; approximately 2,200 acres is suitable for commercial and light industrial development along the primary access corridors; and the remaining 12,800 acres is suitable for open space (i.e. parks, playing fields, and golf courses).

The Company is negotiating with the Rangeview Metropolitan District to provide wastewater/ sewage treatment facilities, in addition to water service, to accommodate the development of the District's 24,000 acres of property. The Company intends to utilize its advanced wastewater treatment technologies to process wastewater into pure potable drinking water for reuse.

During fiscal 1996, the Company purchased the Export Water Rights, consisting of a total gross volume of 1,165,000 acre feet (approximately 11,650 acre feet per year) of non-tributary and not non-tributary ground water, together with an option to substitute 1,650 acre feet of tributary surface water in exchange for a total gross volume of 165,000 acre feet of non-tributary and not nontributary ground water, and surface storage rights from the District in exchange for all the outstanding District Bonds, totaling approximately \$39 million (par plus accrued interest). The Company is marketing the Export Water Rights to Denver area municipal water providers on both a wholesale and retail basis.

PAGE 5 OF 39

The 40 largest municipal water providers in the Denver metropolitan area deliver approximately 95% of the water consumed by residents and businesses in the Denver metropolitan area. The Company actively marketed the Export Water Rights to each of the 40 largest providers during fiscal year 1996. Concurrent with water supply, some area water providers also have independent wastewater/ sewage treatment facilities. While the water supply market throughout the Denver metropolitan area is fragmented with over 100 independent providers, the majority of wastewater/sewage treatment is processed by approximately 10 major wastewater/sewage treatment providers. The majority of Denver area water providers participate to the Metropolitan Wastewater Authority which process approximately 90% of the areas wastewater/sewage.

The Company is actively marketing its Export Water Rights to other municipal users within the Denver area. Development of the District's Service Area will include the design, construction, operation and maintenance of a water delivery system to serve customers within the District's Service Area. The Company will receive 95% of the tap fee and user fee income remaining after payment of royalties to the State Land Board (initially 12%) for its commitments to build, operate, and maintain the water system. The Company expects to use portions of the tap and user fee income to finance the development of facilities for the District's Service Area.

The Export Water Rights could be sold for a lump sum or pursuant to an installment sale contract, either on a wholesale basis, where the purchaser would be responsible for the development of facilities to deliver the water to its users, or on a retail basis where the Company would develop the facilities necessary to deliver the water. The timing, terms, and conditions of sales are dependent on the purchaser.

The Company is also pursuing the sale of the Paradise Water Rights to cities, municipalities, and special district in the downstream states of Arizona, Nevada and California. However, there are certain restrictions under the Colorado River Compact which relate to a reallocation of water rights from one state to another, including a requirement that a court decree authorizing the use of the water rights out of state be obtained and compliance with other interstate compacts or agreements, which would need to be resolved or complied with before the Paradise Water Rights can be sold to users outside of Colorado. If the Company is successful in selling its Paradise Water Rights, the Company would anticipate developing these water rights in a manner similar to the Export Water Rights.

The Company's business of water sales is subject to competitive factors as water providers desiring water will consider alternative sources. The Company is aware of several other private water companies who are attempting to market competing water rights to municipal water providers in the Denver area. In addition, municipal water providers seeking to acquire water rights evaluate independent water rights owned by individuals, farmers, ranchers, etc. The principal factors affecting competition in this regard include, but may not be limited to, the availability of water for the particular purpose, the cost of delivery of the water to the desired location, the availability of water during dry year periods, the quality of the water source, and the reliability of the water supply. The Company believes that its water rights provide the Company with an advantage over its competition because the water rights the Company owns have been designated for municipal use by decrees issued by Colorado water courts, and because of the quantity of water available, the quality of water, their location in the Denver metropolitan area, and Paradise's location to deliver water to either downstream or Denver area water users), and price. The quantity of water the Company has available for sale has been determined by court decrees of the Colorado water courts. The Company has had the quality and quantity of the Rangeview and Paradise Water Rights evaluated by independent appraisers and water engineers. The water quality, without treatment, meets or exceeds all current federal and state drinking water standards.

The business segment of water purification and municipal water recycling are also subject to competition from municipal water providers who also provide wastewater/ sewage processing, and from regional wastewater/sewage processors. The Company is not aware of any private companies providing wastewater/sewage treatment services in the Denver metropolitan area. The Company believes that it could have a competitive advantage because its wastewater treatment technology uses no toxic chemicals and the water after processing exceeds stringent water quality standards currently in effect. Additionally, residual material created in the wastewater treatment process can be composted into a high grade fertilizer for agricultural use.

PAGE 6 OF 39

If the Company is successful in selling water, the construction of wells, dams, pipelines and storage facilities may require compliance with environmental regulations, however the Company believes that regulatory compliance would not materially impact such a sale. It is anticipated that a purchaser of the Company's water rights would undertake to construct the required facilities to deliver the water to its users, however the Company would consider providing such infrastructure as part of a water sale agreement. If the Company were to ultimately agree to provide such facilities, the Company could incur substantial capital expenditures to comply with governmental regulations. However, the Company cannot assess such costs until the purchaser of the water rights and the nature of the water delivery system required has been determined. Similarly if the Company were to obtain a contract for treatment of wastewater and sewage, governmental regulations concerning drinking water guality and wastewater discharge quality may be applicable. However, until the Company has a contract proposal specifying the quantity and type of wastewater to be treated and the proposed use of such treated water, the cost of regulatory compliance cannot be determined.

The Company holds several patents in the United States and abroad related to its water recycling system and components thereof. The value to the Company of these patents is dependent upon the Company's ability to adapt its water recycling system to larger scale applications, or to develop other uses for the technology. These patents will expire in the late 1990's.

The Company currently has four employees.

Item 2. Description of Property

shown on the cover page.

The Company owns approximately 70,000 acre feet of conditional water rights, water wells and related assets in the State of Colorado by assignment and quit claim deed. See "Item 1. Description of Business - Description of Company's Assets - Paradise Water Rights."

During the fiscal year ended August 31, 1996, the Company purchased a total gross volume of 1,165,000 acre feet (approximately 11,650 acre feet per year) of non-tributary and not non-tributary ground water, together with an option to substitute 1,650 acre feet of tributary surface water in exchange for a total gross volume of 165,000 acre feet of non-tributary and not nontributary ground water, and surface storage rights from the District. See "Item 1. Description of Business - Description of Company's Assets - Rangeview water rights."

Item 3. Legal Proceedings

In October 1994, the Company joined in a lawsuit initiated by others including the Rangeview Metropolitan District (the "District"), brought in the District Court of the City and County of Denver, Colorado, against the Colorado State Board of Land Commissioners (the "State Land Board") seeking a declaratory judgment affirming that the lease, as amended, from the State Land Board to the District was valid and enforceable.

In April of 1996, the parties to the lawsuit agreed to a settlement (the "Settlement"). The Settlement, among other things, clarifies the State Land Board's royalty participation in an amended and restated lease relating to the Rangeview water rights. The Company negotiated agreements to acquire the remainder of the District's Bonds not already owned by the Company with a principal value of \$24,914,058 in exchange for interests in the Company's Comprehensive Amendment Agreement ("CAA"). Commitments to the former bondholders and investors to share in the proceeds from the sale or other disposition of the Export Water Rights decreased from approximately \$33,546,000 to approximately \$31,807,000 as a result of the Settlement. The Settlement was subject to obtaining a final non-appealable order of the trial court approving the Settlement. The trial court order was signed June 14, 1996 and became final and non-appealable on July 29, 1996.

PAGE 7 OF 39

Item 3. Legal Proceedings - (continued)

Certain crossclaims in the lawsuit remain pending between the District and the East Cherry Creek Valley Water and Sanitation District (the "ECCV"). One of ECCV's crossclaims would affect the Company in that ECCV asserts that it has the right of first refusal to purchase the Export Water. If ECCV were to prevail on this claim, the Company would be required to sell the Export Water to ECCV. The price for such a purchase would be determined by the court and might be more or less favorable than the price the Company could obtain from a third party. Management does not believe the outcome of the remaining crossclaim will have a material adverse effect on the Company.

Item 4. Submission of Matters to a Vote of Security Holders

No matters were submitted to a vote of stockholders during the fourth quarter ended August 31, 1996.

PAGE 8 OF 39

PART II

Item 5. Market for Common Equity and Related Stockholder Matters

Markets

The table below shows for the quarter indicated the high and low bid prices of the Common stock on the NASDAQ Bulletin Board. The Company's Common stock is traded on the NASDAQ Bulletin Board under the trade symbol PCYL. As of December 6, 1996, there were 4,290 holders of record of the Company's Common stock.

Calenda	ar Quarter	Low	High
1996	First Second Third Fourth	\$.125 \$.14 \$.14 \$.20	\$.1875 \$.19 \$.4375 \$.34375
1995	First Second Third Fourth	\$.125 \$.125 \$.125 \$.125 \$.125	\$.325 \$.325 \$.25 \$.25

Quotations reflect inter-dealer prices, without retail mark-up, mark-down or commission, and may not necessarily represent actual transactions.

Dividends

The Company has never paid any dividends on its Common Stock and does not anticipate paying any dividends in the foreseeable future.

Recent Sales of Unregistered Securities

In August 1996, in connection with a loan for \$300,000, the Company issued warrants to purchase 600,000 shares of the Company's Common Stock at \$.25 per share to six related party, accredited investors who have previously invested in the Company. The loan agreement provides that the Company can extend the due date of any of the installments due to August 30, 2002 by issuing additional warrants.

The Company issued the warrants under Section 4(2) of the Securities Act of 1933 based on the fact that the warrants were offered privately to a limited group of existing stockholders, each of whom is sophisticated in investment matters and qualifies as an accredited investor.

PAGE 9 OF 39

Item 6. Management's Discussion and Analysis or Plan of Operation

Introduction

Pure Cycle is engaged in the privatization of municipal water and wastewater systems in Colorado and throughout the United States. The Company seeks to use its portfolio of water rights and water technologies to enhance the availability and quality of municipally provided drinking water. The Company purchased approximately 11,650 acre feet of water and entered into a Service Agreement with the Rangeview Metropolitan District to develop, operate, and maintain the District's water system. The Company's eighty five (85) year water Service Agreement with the Rangeview Metropolitan District will enable the Company to provide water service to over 36 square miles of property located in the Denver metropolitan area. Subsequent to the fiscal year end, the Company has been negotiating a wastewater service agreement with the District which, if concluded, would authorize the Company to develop, operate, and maintain the District's wastewater system in addition to the water system. The Company continues to develop its patented water recycling technologies and, if successful in obtaining the wastewater service agreement with the District, will seek to integrate these technologies for processing wastewater into pure potable water for reuse as part of its wastewater service commitment to the District's Service Area.

Plan of Operation

Prior to fiscal 1992, the Company funded operations primarily through long term debt financing from certain related parties including the Company's President and major stockholder. Since fiscal 1992, the Company has funded operations with equity financing and by marketing the right to share in proceeds from the sale of its Export Water Rights to private individuals, companies and institutions with an interest in the municipal wholesale water supply market.

The Company is aggressively pursuing the marketing and sales of its water rights to municipal water providers in the Denver metropolitan region as well as users in Arizona, Nevada and California to generate current and long term revenue sources. During the fiscal year 1996, the Company has presented wholesale water supply proposals to 40 municipal water providers throughout the Denver area with respect to the sale of the Export Water Rights. Additionally, during fiscal 1996, the Company has presented wholesale water supply proposals to private and municipal water providers in Nevada, Arizona and California for the sale of the Company's 70,000 acre feet of Paradise Water Rights, understanding that certain legal issues relating to interstate water rights transfers may exist. The Company continues to discuss water supply arrangements with private companies and municipal water providers to whom it has made proposals. The Company continues to identify and market its water rights to other private companies and municipal water providers.

In addition to marketing the Company's water rights, the Company will develop the facilities to provide water and, subject to concluding an agreement with the District, wastewater service to customers on over 24,000 acres of property within the District's Service Area. The property is primarily undeveloped land situated in the Denver metropolitan area. Portions of the property have been sold to a private interest who may develop the property. The timing of the development of the water and wastewater facilities for the District's Service Area and the revenues to be generated therefrom will depend upon when the property is developed.

At this time the Company is not able to determine the timing of water rights sales or the timing of development of the property within the District's Service Area. There can be no assurance that these sales can be made on terms acceptable to the Company or that development will occur. In the event water sales are not forthcoming or development of the property within the District's Service Area is delayed, the Company may sell additional portions of the Company's profits interest pursuant to the CAA, incur additional short or long-term debt obligations or seek to sell additional shares of common stock, preferred stock or stock purchase warrants as deemed necessary by the Company to generate operating capital. The Company's ability to ultimately realize its investment in its two primary water projects is dependent on its ability to successfully market the water, or in the event it is unsuccessful, to sell the underlying water rights. Under provisions of the CAA, the other investors in the the Rangeview project are to receive the first approximately \$31,807,000 from the sale or other disposition of the Rangeview water rights. The Comapny has agreed to pay the next \$4,000,000 in proceeds to LCH, Inc., a company affiliated with the Company's president. The next \$432,513 in proceeds is payable to the holders of the Company's Series B Preferred Stock. The Company retains 100% of the proceeds in excess of \$35,807,232 from the sale or other disposition of the Export Water Rights.

PAGE 10 OF 39

Results of Operations

Summary

The Company continues to operate at a loss with its operating capital requirements funded primarily through equity financings and the sale of rights to participate in the proceeds from the sale of the Company's Export Water Rights.

_ ____

The Company's general and administrative expenses for fiscal 1996 decreased approximately \$4,000 or 1% to \$338,000 as compared to \$342,000 for fiscal year ended August 31, 1995, due primarily to a decrease in payroll expenditures and facility costs. The Company's net loss for fiscal 1996 decreased approximately \$59,000 or 12% to \$456,000 as compared to \$515,000 for fiscal year ended August 31, 1995. The decrease in the net loss for fiscal 1996 over fiscal 1995 was due primarily to the recognition of \$48,228 in extraordinary gain from the extinguishment of debt in 1996 compared to \$4,884 recognized in 1995; lower interest expense resulting from a lower outstanding debt balance resulted in a savings of approximately \$37,000 in fiscal 1996. However, this decrease was largely offset by a charge of approximately \$32,000 resulting from the expiration of an option to purchase certain water rights.

- ----

The Company's general and administrative expenses for fiscal 1995 decreased approximately \$24,000 or 7% to \$342,000 as compared to \$367,000 for fiscal year ended August 31, 1994, due primarily to a

decrease in professional and legal fees, research and development costs and travel related costs. The Company's net loss for fiscal 1995 increased approximately \$9,000 or 2% to \$515,000 as compared to \$506,000 for fiscal year ended August 31, 1994. The increase in the net loss for fiscal 1995 over fiscal 1994 was due primarily to the recognition of \$58,667 in extraordinary gains from the extinguishment of debt in 1994 compared to \$4,884 recognized in 1995.

Liquidity and Capital Resources

At August 31, 1996, current assets exceed current liabilities by \$87,253 and, the Company had cash and cash equivalents of \$127,756.

Cash used in operating activities for fiscal 1996 was approximately \$314,000, and based on budgeted operating costs, it is anticipated that a similar level of operating cash outflows will be incurred during fiscal 1996.

Cash used in investing activities for fiscal 1996 was approximately \$282,000 resulting from the capitalization of costs incurred with respect to the Rangeview and Paradise Water Rights projects and funds loaned to the District under terms of a loan agreement with the Company. The majority of water rights costs incurred during fiscal 1996 were the result of professional and legal fees necessary for negotiating the Settlement. Management believes it will incur substantially lower costs with respect to its water rights holdings during fiscal 1997, based on the expectation that it will not be necessary to incur significant legal fees. In addition, the Company has no further obligation to advance funds to the District under the loan agreement. Because of the revenue sources available to the District, and its operating expense history, the Company believes the District will repay the note within a period of one to two years after the due date of December 31, 1996.

The Company entered into a loan agreement on August 30, 1996 to borrow \$300,000 from six related party investors (see note 4 to the financial statements). The loan is payable in 2002. The proceeds from the note were received subsequent to year end.

Net cash used in financing activities of \$142,5000 in fiscal 1996 resulted from the repayment of a note to an unrelated party, as more fully discussed in note 4 to the financial statements.

Based on budgets prepared by management, at its current activity level, the Company believes that it is capable of sustaining its activities through at least fiscal 1997.

PAGE 11 OF 39

Development of any of the water rights that the Company has, or is seeking to acquire, will require substantial capital investment by the Company. Any such additional capital for the development of the water rights is anticipated to be financed by the municipality purchasing such water rights or through the sale of water taps and water delivery charges. A water tap charge refers to a charge imposed by a municipality to permit a water user access to a water delivery system (i.e. a single-family home's tap into the municipal water system), and a water delivery charge refers to a water user's monthly water bill, generally based on a per 1,000 gallons of water consumed.

The Company has reviewed the carrying value of its long-lived assets, primarily investments in water projects, considering the anticipated future cash flows from these projects. Based on its analysis, it is management's belief that there is no impairment in the carrying value of the Company's long-lived assets as reflected on the balance sheet at August 31, 1996.

Statement of Financial Accounting Standard No. 123, "Accounting for Stock-Based Compensation" ("SFAS 123") was issued by the Financial Accounting Standards Board in October 1995. This Standard addresses the timing and measurement of stock-based compensation expense. Entities electing to continue to follow Accounting Principles Board Opinion No. 25 ("APB 25") must make pro-forma disclosures of net income and earnings per share, as if the fair value based method of accounting defined by SFAS 123 had been applied. SFAS 123 is applicable to fiscal years beginning after December 15, 1995. The Company will adopt SFAS 123 in the first quarter of fiscal 1997 and will elect to retain the approach of APB 25 (the intrinsic value method), for recognizing stock-based compensation in its consolidated financial statements. The Company will include disclosures required by SFAS 123 in future financial statements. Dago

Independent Auditors' Report

The Board of Directors Pure Cycle Corporation:

We have audited the accompanying consolidated balance sheets of Pure Cycle Corporation and subsidiary (a development stage enterprise) as of August 31, 1996 and 1995, and the related consolidated statements of operations, stockholders' equity, and cash flows for the years then ended, and for the period from September 1, 1986 to August 31, 1996. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We did not audit the consolidated financial statements of Pure Cycle Corporation and subsidiary for each of the years in the five-year period ended August 31, 1991. The financial statements for each of the years in the fouryear period ended August 31, 1991 were audited by other auditors whose reports contained explanatory paragraphs discussing the uncertainty about the Company's ability to continue as a going concern. The financial statements for the year ended August 31, 1987 were audited by other auditors who have ceased operations and whose reports contained an explanatory paragraph discussing the uncertainty about the Company's ability to continue as a going concern. Our opinion, insofar as it relates to the cumulative amounts for the years in the five-year period ended August 31, 1991 included in the statements of operations, stockholders' equity and cash flows for the period from September 1, 1986 to August 31, 1996, is based solely upon the reports of the other auditors, which reports have been furnished to us.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Pure Cycle Corporation and subsidiary as of August 31, 1996 and 1995 and the results of their operations and their cash flows for the years then ended and, based on our audits and the reports of the other auditors, for the period from September 1, 1986 to August 31, 1996, in conformity with generally accepted accounting principles.

PURE CYCLE CORPORATION AND SUBSIDIARY (A DEVELOPMENT STAGE ENTERPRISE) NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

August 31, 1996, 1995, and 1994

Organization and Business

Pure Cycle Corporation (the "Company") was incorporated under the laws of the State of Delaware on April 1, 1976, to develop, manufacture and market wastewater recycling systems. During 1987, the Company began a reorganization of its business, shifting emphasis from smaller scale water purification systems to acquiring water rights for future sales of water and subsequent reprocessing of that water with larger scale sewage treatment facilities.

The fiscal year ended August 31, 1987 is considered the commencement of the current development stage activities of the Company. Accordingly, cumulative amounts from September 1, 1986 to August 31, 1996 have been reported in the statements of operation, stockholders' equity and cash flows.

The Company is currently marketing the water from its two primary water projects to municipal water providers in the Denver metropolitan area as well as users in Arizona, Nevada and California. Although the Company believes it will be successful in marketing the water from one or both of its water projects, there can be no assurance that sales can be made on terms acceptable to the Company. The Company's ability to ultimately realize its investment in its two primary water projects is dependent on its ability to successfully market the water, or in the event it is unsuccessful, to sell the underlying water rights.

During its development stage, the Company has funded the acquisition of certain water rights and its operating activities primarily through equity and other financing agreements with investors with an interest in the wholesale municipal water development business. These financing agreements have enabled investors to participate in the future revenues derived from the sale of the Company's water rights. The Company believes that at August 31, 1996 the Company has sufficient working capital and available credit to fund its operations for the next year or longer. There can be no assurances, however, that the Company will be successful in marketing the water from its two primary water projects in the near term. In the event sales are not achieved, the Company may sell additional participating interests in its water projects, incur additional short or long-term debt or seek to sell additional shares of common stock or stock purchase warrants, as deemed necessary by the Company, to generate working capital.

Summary of Significant Accounting Policies

- -----

Consolidation

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary, Rangeview Development Corporation. All inter-company balances and transactions have been eliminated.

Cash equivalents

For purposes of the statement of cash flows, cash and cash equivalents include all highly liquid debt instruments with an original maturity of three months or less.

> PAGE 22 OF 39 PURE CYCLE CORPORATION AND SUBSIDIARY (A DEVELOPMENT STAGE ENTERPRISE) NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - ORGANIZATION AND BUSINESS, BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (continued)

Use of Estimates

The preparation of financial statements in conformity with

generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Marketable Securities

The Company classifies its investment in marketable securities as available-for-sale securities. Unrealized holding gains and losses are recorded as a separate component of stockholders' equity. Realized gains and losses are recorded in the statement of operations.

Investments in Water Projects

The Paradise water rights represent Colorado River water rights, water wells, and a federal right-of-way permit for a dam site located near Debeque, Colorado. The Paradise water rights are recorded at cost.

The Company's investment in the Rangeview water rights is recorded at cost at August 31, 1996. Pursuant to the terms of the Comprehensive Amendment Agreement ("CAA") entered into in August 1996 certain investors in the Rangeview project have the right to receive the first approximately \$31,807,000 from the proceeds of a sale or other disposition of the Rangeview water rights. The consideration received from the investors for this right to participate in the proceeds has been reflected in the accompanying consolidated balance sheet as participating interest in the Rangeview water rights.

Prior to the acquisition of the water rights in 1996, the Company accounted for its investment in the Rangeview Water Commercialization Agreement as if it were a joint venture between the Company and the other investors in the Rangeview Project. At August 31, 1995 the interests attributable to the other investors in the the Rangeview WCA reflected a minority interest in the accompanying consolidated financial statements.

In fiscal 1996 the Company adopted the provisions of Statement of Financial Accounting Standard No. 121 ("SFAS 121"), "Accounting for the Impairment of Long Lived Assets and for Long-Lived Assets To Be Disposed Of". SFAS 121 requires that long-lived assets and certain identifiable intangibles to be held and used by an entity be reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The Company periodically assesses the feasibility, marketability and anticipated future cash flows from the sale of it water rights. Based on this assessment, the Company believes that there is no impairment in the carrying value of the its investment in water rights as reflected on the balance sheet at August 31, 1996 and therefor, the adoption of SFAS 121 had no effect on the Company's financial statements.

Patents

Patents are recorded at cost and are amortized on a straight-line basis over 17 years.

Loss per common share

Loss per common share is computed by dividing net loss by the weighted average number of shares outstanding during each period. Convertible preferred stock and common stock options and warrants have been excluded from the calculation of loss per share as their effect is anti-dilutive.

PAGE 23 OF 39

PURE CYCLE CORPORATION AND SUBSIDIARY (A DEVELOPMENT STAGE ENTERPRISE) NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - ORGANIZATION AND BUSINESS, BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (continued)

Income taxes

Statement of Financial Accounting Standards No. 109, Accounting for Income Taxes ("Statement No. 109") requires the use of the asset and liability method of accounting for income taxes. Under the asset and liability method of Statement 109, deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under Statement 109, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

Reclassifications

Certain amounts have been reclassified for comparability with the 1996 presentation.

NOTE 2 - RANGEVIEW WATER RIGHTS

In November and December of 1990, Inco Securities Corporation, entered into an agreement with the Rangeview Metropolitan District (the "District") to purchase 10,000 acre feet of water rights and entered into a joint Water Rights Commercialization Agreement ("Rangeview WCA") with the Company to jointly develop and market such water rights. From November 1990 through August 1995, the Company made payments to the District totaling \$1,075,000 for various purchase options. In addition, the Company purchased a right of first refusal to 40 acres of real property for \$201,000. The Company also made payments to certain District bond holders totaling approximately \$3,700,000, purchasing approximately \$9,730,000 of District Bonds. All of the amounts paid were capitalized as the cost of the Company's investment in the Rangeview WCA.

In addition to the payments described above, the Company capitalized certain legal and other costs relating to the acquisition of the Rangeview water rights totaling \$6,932,433 in 1996, \$97,859 in 1995 and \$782,121 in years prior.

During the period the Company sold rights to investors to participate in the Company's share of the proceeds from the Rangeview WCA ("Profit's Interests") in order to finance the Company's investment in the Rangeview WCA. In, connection with these transactions the Company transferred approximately \$5,778,000 of District Bonds to certain of the investors.

In October 1994, the Company joined in a lawsuit initiated by others, including the District, brought in the District Court of the City and County of Denver, Colorado, against the Colorado State Board of Land Commissioners (the "State Land Board") seeking a declaratory judgment affirming that the lease, as amended, from the State Land Board to the District was valid and enforceable.

In April of 1996, the parties to the lawsuit agreed to a settlement (the "Settlement"). The Settlement was subject to obtaining a final non-appealable order of the trial court approving the Settlement. The trial court order was signed June 14, 1996 and became final and non-appealable on July 29, 1996.

In connection with the Settlement, the Company entered into a water privatization agreement with the State of Colorado and the District. The water privatization agreement enabled the Company to acquire ownership to a total gross volume of 1,165,000 acre feet of ground water (approximately 11,650 acre feet per year), and an option to substitute 1,650 acre feet of surface water in exchange for a total gross volume of 165,000 acre feet of ground water, and the use of surface reservoir storage capacity (collectively referred to as the "Export Water Rights").

PAGE 24 OF 39

PURE CYCLE CORPORATION AND SUBSIDIARY (A DEVELOPMENT STAGE ENTERPRISE) NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 2 - RANGEVIEW WATER RIGHTS -(continued)

In conjunction with the Settlement, the Company also entered into an 85 year Service Agreement with the District to design, finance, construct, operate, and maintain the District's water system to provide water service to customers within the District's 24,000 acre Service Area. The District has reserved approximately 14,350 acre feet of water per year, together with surface reservoir storage capacity, for the Company's use in providing water service to customers within the District's Service Area. In exchange for providing water service to customers within the District's Service Area, the Company will receive 95% of the District's water revenues remaining after payment of royalties to the State Land Board.

Certain crossclaims in the lawsuit remain pending between the District and the East Cherry Creek Valley Water and Sanitation District (the "ECCV"). One of ECCV's crossclaims could affect the Company in that ECCV asserts that it has the right to first refusal to purchase the Export Water. If ECCV were to prevail on this claim, the Company would be required to sell the Export Water Rights to ECCV. The price for such a purchase would be determined by the court and, consequently, could be more or less favorable than the price the Company could obtain from a third party. Management does not believe the outcome of the remaining crossclaim will have a material adverse effect on the financial condition, results of operations or cash flows of the Company.

In connection with the Settlement of the lawsuit, the Company negotiated agreements with the District's bond holders, not previously investors with the Company, to acquire all of the remaining District Bonds totaling \$15,184,000 by granting the bond holders a senior, secured interest in the proceeds from the sale of the Export Water Rights (referred to as a "Participating Interest") aggregating \$9,110,000, as provided for in the CAA.

Additionally, the Company negotiated agreements with all of the investors in the Rangeview WCA to acquire their WCA Profits Interests as well as all of the Bonds held by certain of those investors totaling \$5,778,000 in exchange for Participating Interests in the CAA. The Bonds acquired from holders not previously investors with the Company, totaling \$15,184,000, together with Bonds held by investors in the Rangeview WCA totaling \$5,778,000, together with bonds held by the Company totaling \$3,700,000 represented all of the District's outstanding Bonds (totaling \$24,914,058). The Company conveyed all of the outstanding District Bonds to the District in exchange for title to the Export Water Rights.

The estimated fair value of the \$15,184,000 of Bonds purchased (\$6,770,000) has been recorded as an increase in the cost of the Rangeview water rights and an increase in the Participating Interests in the Rangeview water rights.

The Participating Interests in the CAA, in the aggregate, have the right to receive the first approximately \$31,807,000 from the proceeds of a sale or other disposition of the Export Water Rights. After the distributions pursuant to the CAA, the Company has agreed to pay the next \$4,000,000 in proceeds to LCH Inc., a company affiliated with the Company's president. The next \$432,513 in proceeds is payable to the holders of the Company's Series B Preferred Stock. The Company retains 100% of the proceeds in excess of \$35,807,232 from the sale or other disposition of the Export Water Rights.

NOTE 3 - NOTE RECEIVABLE

In 1995, the Company extended a line of credit to the District. The loan provides for borrowings of up to \$250,000, is unsecured, bears interest based on the prevailing prime rate plus 2% and, matures on December 31, 1996. The balance of the note receivable at August 31, 1996 was \$251,282, including accrued interest. Based on discussions with the District, repayment of the note is not expected to occur at its maturity date of December 31, 1996. Because of the revenue sources available to it, and its operating expense history, the

PAGE 25 OF 39

PURE CYCLE CORPORATION AND SUBSIDIARY (A DEVELOPMENT STAGE ENTERPRISE) NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 3 - NOTE RECEIVABLE - (continued)

Company believes the District will be able to repay the note within a period of one to two years after its due date. Accordingly, the note has been classified as non-current.

NOTE 4 - LONG-TERM DEBT

- -----

Long-term debt at August 31, 1996 and 1995 is comprised of the following:

Note payable, to related party; due September 1997; non-interest bearing,	ć		ć	
unsecured	\$	26,542	Ş	26,542
Notes payable, including accrued interest, to

Less current maturities of long term debt				185,460)
VIII VIIII VIIII VIII VIII VIII VIII				
Long-term debt, less current maturities	\$	2,750,311	\$	2,888,296

Aggregate maturities of long-term debt are as follows:

Year Ending August 31,	Amount
1998	2,144,101
2000	606,210
Total	\$ 2,750,311

In August 1996, the Company entered into a loan agreement with six related party investors. The loan is for \$300,000, is unsecured, bears interest based on the prime rate plus 2%, is payable in equal quarterly installments through August 30, 1997. The agreement provides that the Company can extend the due date of any of the four quarterly installment to August 30, 2002 by issuing additional warrants (see Note 6). The funds were advanced to the Company subsequent to the year end. In connection with the loan agreement, the Company issued warrants to purchase shares of the Company's common stock. The agreement includes a covenant that prohibits the note from being called prior to the expiration of the warrants issued in conjunction with the note.

In July 1996 the Company entered into an agreement with the two corporations holding the notes payable due February 1998, to can cancel the notes and their security interest in the the Paradise water rights in exchange for assignment of a participation interest in the Rangeview water rights.

In January 1996, the Company reached an agreement with a creditor to retire a note payable, totaling \$190,728 with accrued interest, for a payment of \$142,500. The difference between the principal balance of the note and the amount paid to retire the debt of \$48,228 has been reflected as an extraordinary gain in the consolidated statement of operations for the year ended August 31, 1996.

> PAGE 26 OF 39 PURE CYCLE CORPORATION AND SUBSIDIARY (A DEVELOPMENT STAGE ENTERPRISE) NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 4 - LONG-TERM DEBT - (continued)

During fiscal year 1996, the Company reached agreement with a related party note holder to defer payment of principal and accrued interest payable on certain notes totaling \$606,210 to October 2000.

During fiscal year 1995, the Company reached agreements with two related party note holders to defer payment of principal and accrued interest payable on certain notes totaling \$1,987,740 to October 1997.

As discussed in note 7, during August 1995 the Company entered into an agreement to retire a note payable to the Chairman of the Company. In return for cancellation of the note, the Chairman accepted payment of \$21,453 and the assignment, by the Company, of a \$150,000 Profits Interest in the Rangeview WCA.

As of August 31, 1996, the President and majority stockholder of the Company has pledged a total of 20,000,000 shares of common stock from his personal holdings as collateral on certain of the above notes payable.

NOTE 5 - OTHER NON-CURRENT LIABILITIES

As a result of the expiration of the Colorado statute of limitation, certain accounts payable to creditors and a note payable incurred prior to the Company's suspension of operations in 1985 totaling \$4,884 in 1995 are considered extinguished and have been reflected as an extraordinary item in the accompanying consolidated statements of operations. At August 31, 1996 the Company owes approximately \$127,000 to creditors for obligations incurred prior to the Company's suspension of operations in 1985, for which amounts are reflected as other non-current liabilities in the accompanying balance sheet.

NOTE 6 - STOCKHOLDERS' EQUITY

Preferred Stock

On May 25, 1994, the Company sold 1,600,000 shares of Series A Convertible Preferred Stock \$.001 par value of \$1.00 per share for total proceeds of \$1,600,000. The holders of the Series A Convertible Preferred Stock are entitled to be receive a dividend equal to \$2.00 per share represented by a PArticipation Interest in the CAA. The Series A Preferred Stock is convertible into 4 shares of Common Stock at the election of the Company or the holders of the Preferred Stock.

During years prior to 1994, the Company was charged for the reimbursement of costs, administrative services and rent expense by a company related through common ownership. On August 31, 1994, the Company issued 432,513 shares of Series B Preferred Stock, \$.001 par value, to a related party corporation, in satisfaction of the payable for these charges of \$432,513. The holder of the Series B Preferred Stock is entitled to be paid a dividend amount equal to \$1.00 per share to be paid from the proceeds from a disposition of the Rangeview water rights after the Participating Interests in the CAA and the divided obligation on the Series A Convertible Preferred Stock have been satisfied.

PAGE 27 OF 39

PURE CYCLE CORPORATION AND SUBSIDIARY (A DEVELOPMENT STAGE ENTERPRISE) NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 6 - STOCKHOLDERS' EQUITY - (continued)

Stock Options

On June 15, 1992, the Company adopted an Equity Incentive Plan. In addition, on such date, the Company granted Mr. Fletcher Byrom and Ms. Margaret Hansson options to purchase 7,000,000 and 8,000,000 shares of common stock, respectively, at an exercise price of \$.20 per share, through June 15, 1997. These shares were issued in exchange for options previously issued to Mr. Byrom and Ms. Hansson in June of 1989. Also on June 15, 1992, the Company granted Mr. Mark Harding and Mr. George Middlemas an option to purchase 4,000,000 and 1,000,000 shares of common stock, respectively, under such Plan at an exercise price of \$.25 per share. On March 12, 1996 the Company extended the terms of all such options. Also, on March 12, 1996, the Company granted Mr. Mark Harding options to purchase 3,000,000 shares of common stock at an exercise price of \$.25 per share, 2,000,000 of which were immediately exercisable, with the remaining 1,000,000 vesting in annual increments of 250,000 shares beginning March 12, 1997

During the years ended August 31, 1996 and 1995, no options were exercised.

Warrants

In connection with a loan agreement described in note 4, the Company issued warrants to purchase 600,000 shares of the Company's common stock at \$.25 per share. The warrants expire August 30, 2002. The loan agreement includes a provision entitling the Company to extend the due date of any of the installments to August 30, 2002 by issuing additional warrants to purchase common stock at \$.25 per share. The number of warrants to be issued is equal to 150% of the principal amount due plus accrued interest, divided by \$.25. The estimated fair value of the warrants issued of \$18,000 has been capitalized and is being amortized to expense over the term of the note.

The Company issued warrants between 1990 and 1992 to purchase 21,980,000 shares of the Company's stock at \$.25 per share, in connection with the WCA.

During the years ended August 31, 1996 and 1995, no warrants were exercised.

NOTE 7 - RELATED PARTY TRANSACTIONS

In August 1995 the Company and its Chairman reached an agreement to retire a note payable to the Chairman totaling \$217,235 including accrued interest. In consideration for cancellation of the note, the Company agreed to pay \$21,453 in cash and assign \$150,000 of its profit participation interest in the WCA to the Chairman. Pursuant to the agreement, the Company has reflected the difference in the face amount of the note and the cash consideration as an increase in minority interests in Rangeview WCA and additional paid-in capital of \$75,000 and \$120,782, respectively.

NOTE 8 - INCOME TAXES

The tax effects of the temporary differences that give rise to significant portions of the deferred tax assets and liabilities at August 31, 1996 and 1995 are presented below.

Net deferred tax asset	\$	\$
Net operating loss carryforwards Less valuation allowance	\$ 1,580,000 (1,580,000	
Deferred tax assets:		
	1996	1995

The valuation allowance for deferred tax assets as of September 1, 1996 was \$1,580,000. The net change in the total valuation allowance for the year ended August 31, 1996 was an increase of \$131,000.

At August 31, 1996, the Company has net operating loss carryforwards for federal income tax purposes of approximately \$4,061,000 which are available to offset future federal taxable income, if any, through 2011.

and Financial Disclosure				

There has been no change in the Company's independent auditors during the Company's two most recent fiscal years or any subsequent interim period. Item 9. Directors, Executive Officers, Promoters and Control Persons; with Section 16(a) Beneficial Ownership Reporting Compliance

The following are the officers and directors of the Company as of August 31, 1996:

Name	Age	Position(s) with the Company
Margaret S. Hansson Fletcher L. Byrom		Director, Chairman, Vice President Director
Thomas P. Clark	60	Director, President, Treasurer Director
Richard L. Guido Mark W. Harding	55	Director Chief Financial Officer, Secretary

MARGARET S. HANSSON

Ms. Hansson has been a Director of the Company since April 1977 and Chairman since September 23, 1983, and was the Chief Executive Officer of the Company from September 23, 1983 to January 31, 1984. Since May 1981, Ms. Hansson has been President of M. S. Hansson, Inc., a Boulder, Colorado firm which consults to and invests in small businesses. Ms. Hansson is Chief Executive Officer of AquaLogic, Inc., a Boulder, Colorado company she founded in 1992. From 1976 to May 1981, she was President of GENAC, Inc., a Boulder, Colorado firm, which she founded. From 1960 to 1975, Ms. Hansson was President and Chairman of the Board of Gerico, Inc., now Gerry Baby Products, a Boulder, Colorado manufacturing firm which she also founded. She is a Director of Norwest Banks, Stayodynamics, Inc., the Midwest Group of Trust Funds and Gateway Technologies, Inc. Ms. Hansson received her Bachelor of Arts degree from Antioch College.

THOMAS P. CLARK

Thomas P. Clark has been a Director of the Company and President since June 29, 1987, and Treasurer since September 6, 1988. Mr. Clark is primarily involved in the management of the Company. His business activities include: President, LC Holdings, Inc. (business development), 1983 to present and, Partner, through a wholly owned corporation, of Resource Technology Associates (development of mineral and energy technologies), 1982 to present. Mr. Clark received his Bachelor of Science degree in Geology and Physics from Brigham Young University, Provo, Utah.

MARK W. HARDING

Mark W. Harding joined the Company in February 1990 as Corporate Secretary and Chief Financial Officer. He brings a background in public finance and management consulting experience. From 1988 to 1990, Mr. Harding worked for Price Waterhouse in Management Consulting Services where he assisted clients in Public Finance services and other investment banking related services. Mr. Harding has a B.S. Degree in Computer Science, and a Masters in Business Administration in Finance from the University of Denver.

FLETCHER L. BYROM

Fletcher L. Byrom has been a Director of the Company since April 22, 1988, and is a retired Chairman (1970-1982) and Chief Executive Officer (1967-1982) of Koppers Company, Inc. Mr. Byrom presently serves in the following positions: President and Director of MICASU Corporation and, board member of Thermadyne Holdings Inc.

GEORGE M. MIDDLEMAS

PAGE 30 OF 39

George M. Middlemas is a general partner with the Apex Investment Partners, a diversified venture capital management group. From 1985 to 1991, Mr. Middlemas was Senior Vice President of Inco Venture Capital Management, primarily involved in venture capital investments for Inco. From 1979 to 1985, Mr. Middlemas was a Vice President and a member of the Investment Committee of Citicorp Venture Capital Ltd., where he sourced, evaluated and completed investments for Citicorp. Mr. Middlemas is a director of Security Dynamics Technologies, Inc., American Communications Services, Inc., and Pennsylvania State University - Library Development Board. Mr. Middlemas received Bachelor degrees in History and Political Science from Pennsylvania State University, a Masters degree in Political Science from the University of Pittsburgh and a Master of Business Administration from Harvard Business School.

RICHARD L. GUIDO

Mr. Guido has been a Director of the Company since July 1996. Mr. Guido is the Associate General Counsel for Inco, Limited and President and Chief Legal Officer of Inco United States, Inc. Mr.

Guido is on the Board of Governors, Foreign Policy Association, a Director on the American-Indonesia Chamber of Commerce, and the Canada-United States Law Institute. Mr. Guido received a Bachelor of Science degree from the United States Air Force Academy, a Master of Arts degree from Georgetown University, and a Jurist Doctorate degree from the Catholic University of America.

None of the above persons is related to any other officer or director of the Company. All directors are elected for one-year terms which expire at the annual meeting of stockholders or until their successors are elected and qualified. The Company's officers are elected annually by the board of directors and hold office until their successors are elected and qualified.

Mr. Middlemas was elected to the Company's board of directors pursuant to the EPFund Voting Agreement. See "Security Ownership of Certain Beneficial Owners and Management."

Mr. Guido was elected to the Company's board of directors pursuant to the Inco Voting Agreement. See "Security Ownership of Certain Beneficial Owners and Management."

Section 16(a) Beneficial Ownership Reporting Compliance

The Company's directors and executive officers and persons who are beneficial owners of more than 10% of the Company's Common Stock are required to file reports of their holdings and transactions in Common Stock with the Securities and Exchange Commission and furnish the Company with such reports. Based solely upon its review of the copies the Company has received or upon written representations from these persons, the Company believes that, as of November 27, 1996, all of the Company's directors, executive officers, and 10% beneficial owners had complied with the applicable Section 16 (a) filing requirements.

Item 10. Executive Compensation

		Annual Co	mpensat	ion
Name and Principal Position	Fiscal Year	Salary (\$)	Bonus (\$)	Other Annual Compen- sation (\$)
Thomas P. C Pres./CEO	1996	60,000	0	0
	1995 1994	60,000 80,000	0 0	0 0

For all other executive officers, consisting of two persons, total annual salary and bonuses were less than \$100,000.

PAGE 31 OF 39 Item 11. Security Ownership of Certain Beneficial Owners and Management

The following table sets forth, as of December 6, 1996, the beneficial ownership of the Company's issued and outstanding Common Stock, Series A Preferred Stock and, Series B Preferred Stock by each person who owns of record (or is known by the Company to own beneficially) 5% or more of each such class of stock, by each director of the Company, each executive officer and by all directors and executive officers as a group. Except as otherwise indicated, the Company believes that each of the beneficial owners of the stock listed has sole investment and voting power with respect to such shares, based on information provided by such holders.

The Inco Voting Agreement remains in effect until December 11, 2000.

(10) Pursuant to an Amended and Restated Voting Agreement (the "EPFund Voting Agreement") dated August 12, 1992, Mr. Clark, Ms. Hansson, Mr. Byrom, Apex, EVFund, and PFund have agreed to vote their shares of Common Stock in favor of electing a representative designated by Environmental Private Equity Fund II, L.P. ("EPFund") to the Company's board of directors. The EPFund Voting Agreement remains in effect until August 12, 1997 or the date on which EPFund no longer owns or has rights to acquire at least 1,301,000 shares of Common Stock, whichever is earlier.

(11)Each of the Apex, EVFund, PFund, and EPFund (the "Apex Partnerships") is controlled through one or more partnerships. The persons who have or share control of such stockholders after looking through one or more intermediate partnerships are referred to herein as "ultimate general partners." The ultimate general partners of Apex are: First Analysis Corporation, a Delaware corporation ("FAC"), Stellar Investment Co. ("Stellar"), a corporation controlled by James A. Johnson ("Johnson"); George Middlemas ("Middlemas"); and Paul J. Renze ("Renze"). The ultimate general partners of EVFund are: FAC; F&G Associates ("F&G"); William D. Ruckleshaus Associates, a Limited Partnership ("WDRA"); and Robertson, Stephens & Co. ("RS"). The ultimate general partners of PFund are FAC and Bret R. Maxwell ("Maxwell"). The ultimate general partners of EPFund are FAC, Maxwell, RS, Argentum Environmental Corporation ("AEC") and Schneur A. Genack, Inc. ("SZG").

PAGE 33 OF 39

The business address of FAC, Stellar, Johnson, Middlemas, Renze and Maxwell is 233 S. Wacker Drive, Suite 9600. Chicago Illinois 60606. Each of AEC and SZG maintains its business address c/o The Argentum Group ("TAG"), 405 Lexington Avenue, New York, New York 10174. The business address of F&G is 123 Grove Avenue, Suite 118, Cedarhurst, New York 11516. WDRA maintains its business address at 1201 Third Avenue, 39th Floor, Seattle, Washington 98101. RS maintains its business address at One Embarcadero Center, San Francisco, California 94111.

By reason of its status as a general partner or ultimate general partner of each of Apex Partnerships, FAC may be deemed to be the indirect beneficial owner of 27,282,000 shares of Common Stock, or 29.2% of such shares. By reason of his status as the majority stockholder of FAC, F. Oliver Nicklin may also be deemed to be the indirect beneficial owner of such shares. By reason of their status as ultimate general partners of Apex, Stellar (and through Stellar, Johnson), Middlemas and Renze may be deemed to be the indirect beneficial owners of 13,020,238 shares of Common Stock, or 14.9% of such shares. When these shares are combined with his currently exercisable option to purchase 1,000,000 shares of Common Stock, Middlemas may be deemed to be the beneficial owner (directly with respect to the option shares and indirectly as to the balance) of 14,020,238 shares of Common Stock, or 15.9% of such shares.

By reason of his status as an ultimate general partner of PFund and EPFund, Maxwell may be deemed to be the indirect beneficial owner of 9,020,790 shares of Common Stock, or 11% of such shares.

By reason of F&G's and WDRA's status as an ultimate general partners of EVFund, F&G, WDRA and their respective controlling persons may be deemed to be the indirect beneficial owners of 5,240,972 shares of Common Stock, or 6.5% of such shares. By reason of AEC's and SZG's status as ultimate general partners of EPFund, AEC, SZG and their and their controlling persons may be deemed to be the indirect beneficial owners of 5,054,166 shares of Common Stock, or 6.2% of such shares. By reason of Genack's interest in F&G, AEC and SZG, he may be deemed to be the indirect beneficial owners of 2,054,166 shares of Common Stock, or 6.2% of such shares. By reason of Genack's interest in F&G, AEC and SZG, he may be deemed to be the indirect beneficial owner of 10,295,138 shares of Common Stock, or 12.4% of

By reason of RS's status as a general partner of EVFund and an ultimate general partner of EPFund, RS and its controlling persons may be deemed to be the indirect beneficial owners of 10,295,138 shares of Common Stock, or 12.4% of such shares.

Each of the Apex Partnerships disclaims beneficial ownership of all shares of Common Stock described herein except those shares that are owned by that entity directly. The Company understands that each of the other persons named as an officer, director, partner or other affiliate of any Apex Partnership herein disclaims beneficial ownership of all the shares of Common Stock described herein, except for Middlemas with respect to the option to purchase 1,000,000 shares held by him.

Each of the Apex Partnerships disclaims the existence of a "group" among any or all of them and further disclaims the existence of a "group" among any or all of them and any or all of the other persons named as an officer, director, partner or those affiliate of any of them, in each case within the meaning of Section 13(d) (3) of the 1934 Act.

(12) Includes 21,500,000 shares purchasable by directors and officers under currently exercisable options.

(13) Includes the conversion of 1,600,000 shares of Series A Preferred Stock to Common Stock. Apex Investment Fund II, L.P., owning 408,000 shares of Series A Convertible Preferred Stock which can convert into 1,632,000 shares of Common Stock, The Environmental Private Equity Fund II, L.P., owning 600,000 shares of Series A Convertible Preferred Stock which can convert into 2,400,000 shares of Common Stock, and Proactive Partners, L.P., owning 500,000 shares of Series A Convertible Preferred Stock which can convert to 2,000,000 shares of Common Stock.

(14) Includes 346,010 shares of Series B Preferred Stock which Mr. Clark. the Company's president, may be deemed to hold beneficially by reason of his ownership of 80% of the common stock of LC Holdings, Inc., the owner of 100% of the Series B Preferred Stock.

PAGE 34 OF 39 (15) Includes 86,503 shares of Series B Preferred Stock which LCH, Inc. may be deemed to hold beneficially by reason of its ownership of 20% of the common stock of LC Holdings, Inc., the owner of 100% of the Series B Preferred Stock.

(16) Includes 54,166 shares purchasable by the Environmental Private Equity Fund under a currently exercisable warrant.

(17) Includes 250,000 shares purchasable by Proactive Partners, L.P. under a currently exercisable warrant.

Item 12. Certain Relationships and Related Transactions

From time to time since December 6, 1987, Thomas P. Clark, a Director and President of the Company, loaned funds to the Company to cover operating expenses. These funds have been treated by the Company as unsecured debt, and the promissory notes (the "Notes") with interest at 8.36% to 9.01% per annum, issued to Mr. Clark on various dates are payable October 15, 1997 (the "Maturity Date"). To date, Mr. Clark has loaned the Company \$284,178 of which \$43,350 has been repaid, leaving a balance of \$240,828. As of August 31, 1996, accrued interest on the Notes totaled \$118,592. All loans were made on terms determined by the board members, other than Mr. Clark, to be at market rates.

Additionally, LCH, Inc., a Delaware corporation which owns 20% of LC Holdings, Inc. and is thereby affiliated with Mr. Clark, who owns 80% of LC Holdings, Inc., loaned the Company a total of \$950,000 between November, 1988 and February, 1989. These funds were represented by two Demand Promissory Notes (the "Notes") with interest at a rate equal to the rate announced from time to time by Mellon Bank, Pittsburgh, Pennsylvania as its "prime rate" plus 300 basis points from the date of the first advance thereunder until maturity, payable quarterly beginning on the first day of April, 1989 and continuing thereafter on the first day of each subsequent calendar quarter. No payments were made on the Notes. An April 25, 1989 Assumption of Obligations Agreement assigned the entire debt of \$950,000 to Rangeview Development Corp., which is a whollyowned subsidiary of the Company, and further assigned \$750,000 of that \$950,000 to Rangeview Company, L.P a limited partnership in which LCH held a 45% interest and Rangeview Development Corporation held a 55% interest. In February of 1991, LCH transferred its

interest in Rangeview Company, L.P. to the Company in exchange for a \$4,000,000 profits interest in the Rangeview Project paid subsequent to the first \$31,000,000 profits interest allocation with ISC. In connection with the Settlement Agreement, LCH consented to be paid its \$4,000,000 profits interest from the sale or other disposition of the Export Water subsequent to payment of \$31,808,732 owed under the CAA. During fiscal year ended August 31, 1992, the Company reached an agreement with LCH, Inc. to defer payment of the principal amount of the Notes, plus interest until September 15, 1995. During fiscal year ended August 31, 1995, the Company reached an agreement with LCH, Inc. to defer payment of the principal amount of the Notes, plus interest until October 1, 1997. No additional consideration is due to LCH, Inc. for the deferral. The board members, other than Mr. Clark, determined that the transactions are at fair market value taking into consideration the risk to LCH, Inc.

During fiscal year ended August 31, 1996, the Company reached an agreement with Inco Securities Corporation ("ISC") to defer payment of the principal amount of two notes, plus interest until October 1, 2000, totaling \$606,210. No additional consideration is due to ISC for the deferral.
